

# LOGISTICS

## ENGINEER INNOVATIVE AND VALUE-ADDED LOGISTICS SOLUTIONS

CFL multimodal designs and operates complete logistics chain solutions and offers a full range of value-added services. All our solutions are operated via the intermodal terminal and the warehouse facilities located on the logistics parc Eurohub South site in Luxembourg.

### ONE-STOP-SHOP

Based on our group expertise, we are able to develop **full-service logistics concepts**. In close cooperation with our customers, we provide **individualised solutions**: door-to-door services, pre- and post-production services, semi-finished product assembling, etc.

We also offer all standard **customs agency** services.

### WAREHOUSING

CFL multimodal operates several warehouse facilities.

**We offer:**

- Commissioning
- Picking & packing
- Cross-docking
- Negative and positive temperature-controlled storage

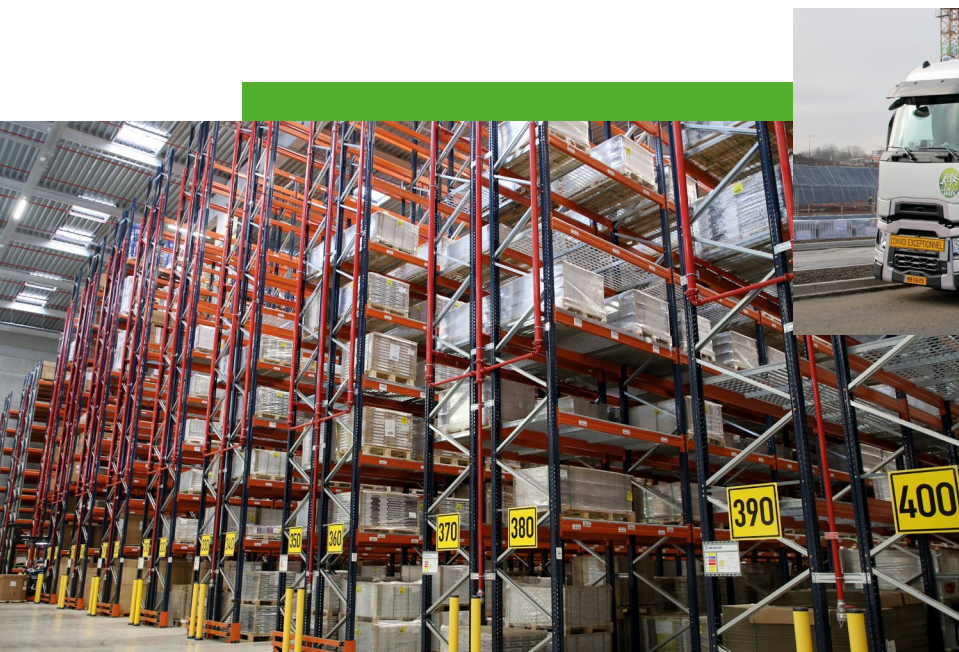

### FREIGHT FORWARDING

CFL multimodal provides freight forwarding services for **all transportation modes**: road, rail, sea and air. We operate within an international network, which enables us to develop **full-service door-to-door transport solutions**.

### ROAD LOGISTICS

In the area of road transport, our service offering covers:

- FTL, LTL
- Special transports
- Container transports
- All-in-renting (vehicle & driver)

**CFL** multimodal

ECOlogistics for our future

The **main warehouse** is located on the Eurohub South site in Dudelange (Luxembourg), right next to the intermodal terminal, rail motorway platform and marshalling yard.

Our warehouse activities include:

- cold storage (cold +4°C, deep frozen -23°C)
- a "hothouse" (+75°C)
- a bonded warehouse
- high-rack storage
- roll storage
- a "tire hotel"
- a dedicated space for picking & packing activities
- 64 loading docks
