

RAIL

CONNECT MAIN PORTS AND EUROPEAN ECONOMIC CENTRES

With the central location at the heart of Europe, on the cross-roads of the North-South and East-West transport axes, CFL multimodal operates trains across all borders, offering the full range of rail freight services.

INTERNATIONAL CONVENTIONAL RAIL TRANSPORTS

With our sister company CFL cargo, we handle **full trains** or **block trains**, as well as **single wagon load**. In close cooperation with our customers and partners, we continuously improve our train capacity management system in order to increase the efficiency of single wagon load traffic.

Furthermore, we are experts in **oversize load transportation**.

WAGON AND LOCOMOTIVE MAINTENANCE

We provide **maintenance and repair services** for railway wagons and diesel hydraulic locomotives and are a European **recognized center of expertise** for the maintenance and repair of freight wagon brakes, wheel sets and LOHR Railway System wagons.

Furthermore, we provide **technical fleet management services** for our clients.

PAN-EUROPEAN INTERMODAL TRANSPORTS

The development of **combined transport** is one of CFL multimodal's **main focuses**.

Our offering of door-to-door and combined transport services includes:

- Management and transport of all types of ITU: craneable and non-craneable semi-trailers, 20" to 45" containers (dry, swap body with curtain sides, box, fridge, ...), flats, 20" to 40" cisterns for liquids or solids, ...
- Pre- and post-carriage
- ITU storage

REGIONAL LAST MILE AND INDUSTRIAL SITE RAIL SERVICES

In addition to feeder services at several **industrial sites** in Luxembourg, the Greater Region and Lyon (PLEH), we also provide **management services** for **private rail sidings** and **industrial networks** on different sites in Europe.
